

Building on the award winning Corator DS heatsink, the Corator DS – LGA2011 is an excellent choice for High-End Sandy Bridge – E (Core i7-3000 series) based systems.

Equipped with Coolink's exclusive Gapless Direct Touch (GDT) technology that allows for an all copper contact area, the Corator DS - LGA2011 brings the concept of direct contact cooling to the next level by further improving heat transfer. Thanks to four large 8mm heatpipes, a dual fin stack design and a PWM controlled SWiF2 120mm fan, the Corator DS achieves an optimal balance between outstanding cooling performance and quiet operation.

The Corator's high-end package is topped off with the new SecuFirm™ 2 mounting system for LGA2011 and a tube of Coolink's award-winning Chillaramic thermal compound.

Specifications

Product	Corator DS (CPU-Cooler)
Material	Copper (base and heat-pipes), aluminium (cooling fins)
Size incl. Fan	155 x 140 x 121 mm
Weight incl. Fan	1040 g
Fan Size	120x120x25mm
Fan	Coolink SWiF2-120P
Bearing Type	high-performance hydro-dynamic bearing
Rotational Speed (+/- 10%)	800-1700 RPM
Airflow	60.4-127.6 m³/h
Acoustical Noise	8.5-27.1 dB/A
Socket Compatibility	Intel LGA2011

Packaging Information

Scope of Delivery	Heatsink, SWiF2-120P fan, mounting hardware (SecuFirm™ 2 for LGA2011), thermal paste
Warranty	60 months
Packaging Type	Retail
Packaging Size (HxDxW)	240 x 200w x 172 mm
Total Weight	1.86 kg
Pcs/Colli	8
MSRP/Pc	EUR 49.90 / USD 59.90
EAN Code	4716123314752

- Four 8mm heatpipes
- Asymmetrical dual fin stacks
- Gapless Direct Touch technology
- SWiF2-120P high-performance 120mm fan
- PWM fan speed control
- SecuFirm™ 2 mounting system for LGA 2011
- Chillaramic thermal compound

Coolink is a brand of the Kolink International Corporation and stands for an effective conjunction of no-frills performance, excellent quality and attractive pricing.
